A Shattered Nervous System. FINALLY HEART TROUBLE.

Restored to Health by Dr. Miles' Nervine

MR. EDWARD HARDY, the jolly manager of Sheppard Co.'s great store at Braceville, Ill., writes: "I had never been sick a day in my life until 1890. I got so bad with nervous prostration that I had to give up and commence to doctor. I tried our local physicians and one in Joliet, but none gave me any relief and I thought I was going to die. I became despondent and suffered untold agony. I could not eat, sleep nor rest, and it seemed as if I could not exist. At the end of six months I was reduced to but a shadow of myself, and at last my heart became affected and I was truly miserable. I took six or eight bottles of Dr. Miles' Nervine. It gave me relief from the start, and at last a cure, the greatest blessing of my life." WAR ENDED

Was Quietly Terminated at the White House Last Evening.

PROTOCOL IS SIGNED

By Secretary Day and the French Ambassador, M. Cambon.

CESSATION OF HOSTILITIES

Ordered by President McKinley.

Instructions Sent to Military and Naval Commanders to Suspend Operations Pending Peace Negotiations—Sampson Ordered to Raise Cuban and Porto Rico Blockades—General Merritt Will Be Instructed to Occupy Manila and General Miles Will Take Charge In Porto Rico—Description of the Ceremonies Attending the Signing of the Protocol.

Washington, Aug. 13.—With simplicity in keeping with Republican institutions, the war, which has raged between Spain and the United States for a period of three months and 22 days, was quietly terminated at 23 minutes past 4 o'clock yesterday afternoon, when Secretary Day for the United States and M. Cambon for Spain, in the presence of President McKinley, signed a protocol which will form the basis of a treaty of peace. It is but simple justice to our sister republic of France to record the fact that to her good offices this speedy termination of a war that might have run on indefinitely was brought about and the president himself deemed that action on the part of the French government as worthy of his special praise.

The closing chapter of events that led up to the signature of the protocol and the cessation of hostilities was full of interest. There were rumors early in the day that the French embassy had received the long expected final instructions from Madrid, but these, upon inquiry, proved groundless, as it was not until afternoon that the note began to come from Madrid in small lots. The state department was soon advised of the fact that the message was under transmission.

As soon as the French ambassador was in full possession of the note Secretary Day was notified by the secretary of the French embassy that the note had been received; that Ambassador Cambon was fully empowered to sign the protocol for Spain and awaited the pleasure of the state department. He informed that the ambassador would be pleased to have the final ceremony conducted in the presence of President McKinley.

A woman's hair is her glory. Like her complexion, much of its beauty depends upon her general health. Nine times in ten a woman's general health is dependent upon her local health in a womanly way. It is an impossibility for a woman to be pretty or attractive who suffers from general ill health. The skin, the teeth, the eyes, the hair and the carriage will tell the story when a woman is ailing. It is impossible for a woman to be in good general health when some local trouble is continually nagging at her nerves and disturbing the natural functions of every organ of the body. Dr. Pierce's Favorite Prescription is the best of all medicines for women who suffer from local weakness and disease peculiar to their sex. It acts directly on the delicate and important organs concerned. It makes them strong, healthy, vigorous and elastic. It allays inflammation, heals ulceration, soothes pain, tones and builds up the nerves and banishes the usual discomforts of the expectant months. It makes baby's advent easy and almost painless. It enables every organ of the body to perform its natural functions without unnatural interference from a pain-tortured nervous system. It corrects all irregularities. A woman who is made well in this way will recover her natural beauty of form and feature and her natural amiability of character and temper. Thousands of women have testified to its merits. An honest dealer will not urge a substitute for a little extra profit.

Mrs. Rachel Clark, of Houlton, St. Croix Co., Wis., writes: "I am in good health since I have taken Dr. Pierce's Favorite Prescription. I gave birth to a 12½ pound boy last June. He is six months old now and weighs 30 pounds. How to preserve health and beauty are told in Dr. Pierce's Common Sense Medical Adviser. It is free. For a paper-covered copy send 21 one-cent stamps, to cover mailing only; cloth binding, 31 stamps. Address Dr. E. V. Pierce, Buffalo, N. Y.

Kinley, where the negotiations were begun.

Leaving the secretary of the embassy in his own office, Secretary Day made a short visit to the white house to learn the president's wishes in the matter. The latter immediately consented to accept the suggestion and Mr. Thiebaut hastened to inform his principal that the president would receive him at the white house at 4 o'clock.

Cambon Arrived During a Rainstorm. At the appointed hour a driving rainstorm prevailed, obliging all the parties to resort to carriages for transportation to the white house. Secretary Day came first, accompanied by Assistant Secretary Moore, Second Assistant Secretary Ade and Third Assistant Secretary Cridler. They went immediately

into the cabinet room, where the president sat in waiting. He had invited to be present Assistant Secretaries Prudden and Cortelyou and Lieutenant Colonel Montgomery.

When Ambassador Cambon reached the white house and, with Secretary Thiebaut, was ushered into the cabinet room, where the presidential party was waiting, it was just 4:05 o'clock. After an exchange of diplomatic courtesies, unnecessary loss of time did not occur and Assistant Secretary of State Cridler, on the part of the United States,

JULES M. CAMBON.
(French Ambassador, Who Signed the Protocol for Spain.)

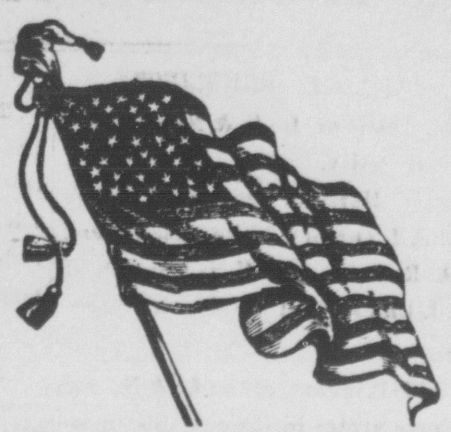

and First Secretary Thiebaut, on the part of Spain, retired to a window, where there was a critical formal examination of the protocol.

It was prepared in duplicate at the state department, one copy to be retained by the United States government and the other to become the property of Spain.

The text is handsomely engrossed in a running old English script. Each copy of the protocol is arranged in double column, French and English, standing alongside for easy comparison as to the exactness of translation. The two copies are alike, except that the one held by this government has the English text in the first column and the signature of Secretary Day ahead of that of M. Cambon, while the copy transmitted to Spain has French in the first column and the signature of M. Cambon ahead of that of Secretary Day.

Signed the Document. The examination of the protocol was satisfactory and the document was handed to M. Cambon, first, and then to Secretary Day, who affixed signatures in that order to each side of the two copies. Then the last detail in making the protocol binding was administered by Assistant Secretary Cridler, in charge of the chancery work, who attached the seal of the United States. Throughout the ceremony all but the two signers remained standing. M. Cambon, in signing for Spain, occupied the seat which Secretary of the Navy Long, now away on a vacation, usually occupied. The president stood at the left hand corner at the head of the great cabinet table. Secretary Day, M. Thiebaut and M. Cambon in the order named on the left side of the table. The rest of the party were standing in other portions of the room.

It was 4:23 o'clock when the final signatures were attached to the protocol and, within the knowledge of all the officials present, this was the first time that a protocol or treaty had been signed at the white house. As this ceremony was concluded, Acting Secretary Allen of the navy department, Secretary Alger and Adjutant General Corbin appeared, having been summoned to the white house by the president, and they were admitted into the cabinet room, just in season to witness one of the most impressive features of the ceremony, when the president requested the hand of the ambassador and through him returned thanks to the sister republic of

GREAT RELIEF FELT

In Spanish Government Circles Over Peace Negotiations.

CORTES WILL NOT MEET

Until Autumn, When Agitation of Extremists Will Have Cooled Down—McKinley Acted Wisely In Not Questioning M. Cambon's Competency—English Press Expresses Gratification.

Madrid, Aug. 13.—The protocol will be published simultaneously in the official gazettes here and in Washington.

The papers discuss the situation quietly, and great relief is felt in government and court circles that President McKinley has not demanded a convocation of the cortes to approve the peace preliminaries. The cortes will now not be summoned until autumn, by which time it is expected that the agitation of the extremists will have cooled down and the country have become more inclined to accept accomplished facts.

The commission of commerce, under the presidency of Senor Castillo, which is to meet in the West Indies will be composed, it is understood, of military officers, and it is believed here that this commission will pave the way for commercial treaties and for a recognition by the United States or Cuba of a portion of the Cuban debt.

The suggestion that Senor Moret, former minister for the colonies, may preside over the Paris commission is not very popular. Various names are mentioned in connection with the commission's personnel, but nothing has yet been settled as to this.

Senor Sagasta has again assured the queen regent that he does not fear Carlist trouble, and the Carlist themselves appear to recognize that the country is not in the temper that would support a Carlist rising. They are now speculating on the return of the discontented repatriated army, hoping for mischief there.

The government has decided to withdraw its prohibition of wheat export from and after next Monday.

HAWAIIAN NEWS.

Admiral Miller Arrives at Honolulu.

Raised the United States Flag. Honolulu, Aug. 4, via Victoria, B. C., Aug. 13.—The United States steamship Philadelphia has arrived here with Admiral Miller and staff on board, who came for the purpose of raising the American flag over the Hawaiian islands. Admiral Miller has orders to confer with Minister Sewall, and until after the conference nothing definite will be decided as to the flag raising program.

A conference with the Hawaiian government will be held this afternoon. It is generally understood that the flag will not be raised until the commissioners arrive on the 17th inst.

F. M. Hatch has resigned his position as minister to the United States. The Japanese embargo of 1897 has been settled by the payment of \$75,000 to Japan. In making the payment the government does not admit the justice of the claim or right of Japan to indemnity. The payment was made at the request of President McKinley.

ACTED WISELY

Did President McKinley In Not Questioning M. Cambon's Competency.

London, Aug. 13.—The Madrid correspondent of The Times, confirming the earlier statement that the text of the protocol was only received Thursday evening says:

"Some difficulty arose in the cabinet council over the competency of M. Cambon to sign the protocol. As it is quite certain that the cortes will ratify the treaty, President McKinley acted wisely in not giving undue prominence to this question. There is no conceivable doubt that Senor Sagasta will get the requisite sanction for concluding peace. Whether he will ask for it in one or two instalments is a question of parliamentary strategy. A member of the cabinet assures me that it has not yet been decided."

Remembered the Maine.

Washington, Aug. 13.—The state department has received the following from the consul at Montevideo: "The sacrifices of those who were lost in the destruction of the Maine in Havana harbor are not forgotten in this far-away place. I have the pleasure to report that the masters of the American ships war-bound here, and others, have placed a very beautiful, costly and permanent porcelain medallary wreath on the walls of the consulate as an expression of their sorrow and remembrance of our dead in that foul crime."

The English Press.

London, Aug. 13.—The morning papers were unanimous in expressing gratification that the war is ended. The comment mainly turns on the fact that the protocol leaves untouched the hardest problems now facing America. The Times believes it will be a real peace, adding: "We trust it is no violation of neutrality to express the satisfaction of the great majority of Englishmen in America's success."

Movement Against Enemy Abandoned.

Ponce, Porto Rico, Aug. 13.—The contemplated flank movement against the enemy entrenched at Aibonito by the Second Wisconsin has been abandoned by order of General Miles. The officers here are inclined to believe that the war is ended, owing to the peace

news. It has developed that 11 Spaniards were killed and 60 wounded in the fight at Coamo.

KENTUCKY SOLDIERS.

Efforts Being Made to Have Them Sent

Frankfort Ky., Aug. 13.—At the request of Thomas B. Cromwell of Lexington, Governor Bradley has telegraphed Secretary Alger, asking that the Second Kentucky Infantry be transferred to the First brigade, Third division, First corps, and sent with General Sanger's command to Lexington.

Mr. Cromwell was in consultation with the governor relative to the wishes of Colonel Gaither, whom he visited in Chickamauga park last Tuesday. The health of the Second Kentucky is generally bad. There are now over 100 sick on the rolls. Colonel Gaither is exerting every effort to secure the removal of the regiment from the park. He has offered to march his command back to Kentucky—236 miles—or to any other point in the United States if the war department will take him out of what he calls a "disease-breeding hole."

SNAKE DANCE.

Prayer for Rain—Peculiar Ceremonies of the Moki Pueblos.

Canon Diablo, A. T., Aug. 13.—Indian rumors from the Moki Pueblos, north of this point, announce that the date for the snake dance, to be held at the pueblo of Oraibi this year, has been set for Aug. 22. This dance will also be performed at two of the other Moki villages on or about the same date. The snake dance is a prayer for rain, the Moki dwelling upon the desert where crops are far from certain, and August is a critical period in their agriculture. It is a 9-days' ceremony, which, for the first eight days, is confined to secret rites in the underground devotional chambers or kivas. On the ninth day a public dance occurs, participated in by the priests of the Snake and Aetolope fraternities, during which live snakes are carried in the mouth and otherwise familiarly handled. About one-third the number of reptiles are poisonous rattlesnakes, which are in no way deprived of their death dealing power.

Quarantined Against Yellow Fever. Jackson, Miss., Aug. 13.—An official report having been received that one death has occurred from yellow fever at Franklin, La., Dr. John F. Hunter, secretary of the state board of health, has quarantined the state of Mississippi against the town of Franklin and St. Mary's parish, in which it is situated. No passenger, freight, baggage or express will be allowed brought within the state from that parish.

Profiting by Others' Misfortunes.

Williamsburg, Ky., Aug. 13.—There is a heavy log tide in the Cumberland river, and more logs are running than were ever known before. Several large booms up the river have given way and logs pass here at the rate of over 300 per minute. Thousands are passing by which cannot be secured. The millmen here are profiting by the loss of those up the river, and will have their booms filled for the first time in years.

Rear Admiral Kirkland Dead.

Vallejo, Cal., Aug. 13.—Rear Admiral Kirkland, commandant of the Mare Island navyyard, died last night.

THE PROTOCOL.

Some of the Provisions of the Document Signed Yesterday.

Washington, Aug. 13.—Secretary Day gave out a statement as to points covered by the protocol, in part as follows: Spain relinquishes all authority over Cuba; Porto Rico and other Spanish West India islands, together with one of the Ladrone islands to be ceded the United States; United States to hold the city, bay and harbor of Manila pending conclusion of treaty of peace.

Rush at Camp Wikoff.

New York, Aug. 13.—General Young and Colonel Forwood are trying their utmost to get camp Wikoff at Montauk point in shape for the great number of troops expected there by rail by transports in the next 48 hours. In spite of rushing things day and night, there is a great amount of work to be done, and General Young has telegraphed the Washington authorities not to send any more troops by rail to Montauk until the camp was in better shape.

Fifth Volunteer Immunes.

Santiago de Cuba, Aug. 13.—The Rio Grande arrived yesterday with the Fifth volunteer immune regiment, under Colonel Sargent, and the Second regular cavalry. The enlisted men are mainly from Mississippi and Alabama, but there are some from Illinois.

Arrived from Santiago.

Bedford, Ind., Aug. 13.—Dr. and Mrs. Joseph Gardner of this city, who went to Santiago at the breaking out of the war in the interest of the Red Cross society, have arrived at home. The doctor is very ill with malarial fever.

Dunkirk and Reelkey Electric Railway.

Dunkirk, Ind., Aug. 13.—The contract for an electric railway between this place and Reelkey has been awarded to New York and Chicago parties. The road is to be completed by Nov. 16.

BLOCKADE RAISED.

Orders Sent to the United States Naval Commanders.

Washington, Aug. 13.—In accordance with the proclamation issued by the president suspending hostilities, orders were issued last evening to the naval commanders at the several stations in the United States, Cuba and the Philippines carrying into effect the directions of the proclamation. The following order was sent by the navy department to Admiral Sampson at Santiago:

Suspend all hostilities. Blockade of Cuba and Porto Rico is raised. Howell ordered to assemble vessels at Key West. Proceed with New York, Brooklyn, Indiana, Oregon, Iowa and Massachusetts to Tompkinsville. Place monitors in safe harbor in Porto Rico. Watson transfers his flag to Newark and will remain at Guantanamo. Assemble all cruisers in safe harbors. Order marines north in Resolve.

ALLIES, Acting Secretary.

The notification to Admiral Dewey was not made public, but Assistant Secretary Allen stated that besides being put in possession of the president's proclamation he was ordered to cease hostilities and raise the blockade of Manila.

In compliance with the orders sent, Admiral Sampson and Commodore Ramey (who received a similar order) will each send a vessel around the coast of Cuba to notify the blockading squadron that the blockade has been raised.

Admiral Schuler, being on the Brooklyn and included in the orders to that vessel, will come north with her.

The text is handsomely engrossed in a running old English script. Each copy of the protocol is arranged in double column, French and English, standing alongside for easy comparison as to the exactness of translation. The two copies are alike, except that the one held by this government has the English text in the first column and the signature of Secretary Day ahead of that of M. Cambon, while the copy transmitted to Spain has French in the first column and the signature of M. Cambon ahead of that of Secretary Day.

Signed the Document.

The examination of the protocol was satisfactory and the document was handed to M. Cambon, first, and then to Secretary Day, who affixed signatures in that order to each side of the two copies. Then the last detail in making the protocol binding was administered by Assistant Secretary Cridler, in charge of the chancery work, who attached the seal of the United States. Throughout the ceremony all but the two signers remained standing. M. Cambon, in signing for Spain, occupied the seat which Secretary of the Navy Long, now away on a vacation, usually occupied. The president stood at the left hand corner at the head of the great cabinet table. Secretary Day, M. Thiebaut and M. Cambon in the order named on the left side of the table. The rest of the party were standing in other portions of the room.

It was 4:33 o'clock when the final signatures were attached to the protocol and, within the knowledge of all the officials present, this was the first time that a protocol or treaty had been signed at the white house. As this ceremony was concluded, Acting Secretary Allen of the navy department, Secretary Alger and Adjutant General Corbin appeared, having been summoned to the white house by the president, and they were admitted into the cabinet room just in season to witness one of the most impressive features of the ceremony, when the president requested the hand of the ambassador and through him returned thanks to the sister republic of

GREAT RELIEF FELT

In Spanish Government Circles Over Peace Negotiations.

CORTES WILL NOT MEET

Until Autumn, When Agitation of Extremists Will Have Cooled Down—McKinley Acted Wisely In Not Questioning M. Cambon's Competency—English Press Expresses Gratification.

Madrid, Aug. 13.—The protocol will be published simultaneously in the official gazettes here and in Washington.

The papers discuss the situation quietly, and great relief is felt in government and court circles that President McKinley has not demanded a convocation of the cortes to approve the peace preliminaries. The cortes will now not be summoned until autumn, by which time it is expected that the agitation of the extremists will have cooled down and the country have become more inclined to accept accomplished facts.

The commission of commerce, under the presidency of Senor Castillo, which is to meet in the West Indies will be composed, it is understood, of military officers, and it is believed here that this commission will pave the way for commercial treaties and for a recognition by the United States of Cuba of a portion of the Cuban debt.

The suggestion that Senor Moret, former minister for the colonies, may preside over the Paris commission is not very popular. Various names are mentioned in connection with the commission's personnel, but nothing has yet been settled as to this.

Senor Sagasta has again assured the queen regent that he does not fear Carlist trouble, and the Carlist themselves appear to recognize that the country is not in the temper that would support a Carlist rising. They are now speculating on the return of the discontented repatriated army, hoping for mischief there.

The government has decided to withdraw its prohibition of wheat export from and after next Monday.

HAWAIIAN NEWS.

Admiral Miller Arrives at Honolulu. Raised the United States Flag.

Honolulu, Aug. 4, via Victoria, B. C., Aug. 13.—The United States steamship Philadelphia has arrived here with Admiral Miller and staff on board, who came for the purpose of raising the American flag over the Hawaiian islands. Admiral Miller has orders to confer with Minister Sewall, and until after the conference nothing definite will be decided as to the flag raising programme.

A conference with the Hawaiian government will be held this afternoon. It is generally understood that the flag will not be raised until the commissioners arrive on the 17th inst.

F. M. Hatch has resigned his position as minister to the United States. The Japanese embargo of 1897 has been settled by the payment of \$75,000 to Japan. In making the payment the government does not admit the justice of the claim or right of Japan to indemnity. The payment was made at the request of President McKinley.

CEASE HOSTILITIES.

Orders Sent to Commanders of the Army and Navy.

Washington, Aug. 13.—As soon as the peace protocol was signed the president sent for Secretaries Alger and Long and General Corbin, and by his direction orders to cease hostilities forthwith were sent to Generals Miles, Merritt and Shafter, to Admirals Dewey and Sampson, and military commanders generally. The order sent to General Merritt to suspend hostilities was as follows:

ADJUTANT GENERAL'S OFFICE, WASHINGTON, Aug. 13, 1898.

The president directs all military operations against the enemy be suspended. Peace negotiations are now being completed, a protocol having just been signed by representatives of the two countries. You will inform the commanders of the Spanish forces in the Philippines of these instructions. Further orders will follow. Acknowledge receipts. By order of the secretary of war.

H. C. CORB, JR., Adjutant General.

The orders sent to General Miles and General Shafter were identical with the above save as to the names.

As the order states, further instructions will be sent to each general. General Merritt will be directed to confer with the Spanish commandant at Manila to carry out the terms of the protocol, and to occupy Manila immediately. General Miles will put himself in communication with the chief authority in Porto Rico for the purpose of having Spanish forces turn over San Juan and other points to him preparatory to evacuation. Owing to conditions in Cuba the orders to General Shafter, to be sent hereafter, will be much different than those to other generals.

The navy department is also preparing orders to all commanders on lines similar to the war department order.

Brigadier General McKee at Knoxville.

Knoxville, Aug. 13.—Brigadier General McKee is here to inspect a camp site for his troops—Second division. First corps—to be removed here from Chickamauga. Lieutenant Way of the Grigsby "rough riders" is also here and has selected a camp for 3,000 cavalry, which will also be sent here.

Moement Against Enemy Abandoned.

Ponce, Porto Rico, Aug. 13.—The contemplated flank movement against the enemy entrenched at Albion by the Second Wisconsin has been abandoned by order of General Miles. The officers here are inclined to believe that the war is ended, owing to the peace

news. It has developed that 11 Spaniards were killed and 60 wounded in the fight at Coamo.

KENTUCKY SOLDIERS.

Efforts Being Made to Have Them Sent Home.

Frankfort Ky., Aug. 13.—At the request of Thomas B. Cromwell of Lexington, Governor Bradley has telegraphed Secretary Alger, asking that the Second Kentucky Infantry be transferred to the First brigade, Third division, First corps, and sent with General Sanger's command to Lexington.

Mr. Cromwell was in consultation with the governor relative to the wishes of Colonel Gaither, whom he visited in Chickamauga park last Tuesday. The health of the Second Kentucky is generally bad. There are now over 100 sick on the rolls. Colonel Gaither is exerting every effort to secure the removal of the regiment from the park. He has offered to march his command back to Kentucky—236 miles—or to any other point in the United States if the war department will take him out of what he calls a "disease-breeding hole."

SNAKE DANCE.

Prayer For Rain—Feculiar Ceremonies of the Moki Pueblos.

Canon Diablo, A. T., Aug. 13.—Indian rumors from the Moki Pueblos, north of this point, announce that the date for the snake dance, to be held at the pueblo of Oraibi this year, has been set for Aug. 22. This dance will also be performed at two of the other Moki villages on or about the same date. The snake dance is a prayer for rain, the Moki dwelling upon the desert where crops are far from certain, and August is a critical period in their agriculture. It is a 9-days' ceremony, which, for the first eight days, is confined to secret rites in the underground devotional chambers or kivas. On the ninth day a public dance occurs, participated in by the priests of the Snake and Antelope fraternities, during which live snakes are carried in the mouth and otherwise familiarly handled. About one-third the number of reptiles are poisonous rattlesnakes, which are in no way deprived of their death dealing power.

Quarantined Against Yellow Fever.

Jackson, Miss., Aug. 13.—An official report having been received that one death has occurred from yellow fever at Franklin, La., Dr. John F. Hunter, secretary of the state board of health, has quarantined the state of Mississippi against the town of Franklin and St. Mary's parish, in which it is situated. No passenger, freight, baggage or express will be allowed brought within the state from that parish.

Profiting by Others' Misfortunes.

Williamsburg, Ky., Aug. 13.—There is a heavy log tide in the Cumberland river, and more logs are running than were ever known before. Several large booms up the river have given way and logs pass here at the rate of over 300 per minute. Thousands are passing by which cannot be secured. The millmen here are profiting by the loss of those up the river, and will have their booms filled for the first time in years.

Rear Admiral Kirkland Dead.

Vallejo, Cal., Aug. 13.—Rear Admiral Kirkland, commandant of the Mare Island navy yard, died last night.

THE PROTOCOL.

Some of the Provisions of the Document Signed Yesterday.

Washington, Aug. 13.—Secretary Day gave out a statement as to points covered by the protocol, in part as follows: Spain relinquishes all authority over Cuba; Porto Rico and other Spanish West India islands, together with one of the Ladrone islands to be ceded the United States; United States to hold the city, bay and harbor of Manila pending conclusion of treaty of peace.

Rush at Camp Wikoff.

New York, Aug. 13.—General Young and Colonel Forwood are trying their utmost to get camp Wikoff at Montauk point in shape for the great number of troops expected there by rail by transports in the next 48 hours. In spite of rushing things day and night, there is a great amount of work to be done, and General Young has telegraphed the Washington authorities not to send any more troops by rail to Montauk until the camp was in better shape.

Fifth Volunteer Immunes.

Santiago de Cuba, Aug. 13.—The Rio Grande arrived yesterday with the Fifth volunteer immune regiment, under Colonel Sargent, and the Second colonial cavalry. The enlisted men are mainly from Mississippi and Alabama, but there are some from Illinois.

Arrived From Santiago.

Bedford, Ind., Aug. 13.—Dr. and Mrs. Joseph Gardner of this city, who went to Santiago at the breaking out of the war in the interest of the Red Cross society, have arrived at home. The doctor is very ill with malarial fever.

Dunkirk and Redkey Electric Railway.

Dunkirk, Ind., Aug. 13.—The contract for an electric railway between this place and Redkey has been awarded to New York and Chicago parties. The road is to be completed by Nov. 18.

BLOCKADE RAISED.

Orders Sent to the United States Naval Commanders.

Washington, Aug. 13.—In accordance with the proclamation issued by the president suspending hostilities, orders were issued last evening to the naval commanders at the several stations in the United States, Cuba and the Philippines carrying into effect the directions of the proclamation. The following order was sent by the navy department to Admiral Sampson at Santiago:

Suspend all hostilities. Blockade of Cuba and Porto Rico is raised. Howell ordered to assemble vessels at Key West. Proceed with New York, Brooklyn, Indiana, Oregon, Iowa and Massachusetts to Tompkinsville. Place monitors in safe harbor in Porto Rico. Watson transfers his flag to Newark and will remain at Guantanamo. Assemble all cruisers in safe harbors. Order marines north in Resolute. ALLEN, Acting Secretary.

The notification to Admiral Dewey was not made public, but Assistant Secretary Allen stated that besides being put in possession of the president's proclamation he was ordered to cease hostilities and raise the blockade of Manila.

In compliance with the orders sent, Admiral Sampson and Commander B. A. Meyer (who received a similar order) will meet a vessel around the coast of Cuba to notify the blockading squadron that the blockade has been raised.

Admiral Schley, being on the Brooklyn and included in the order to that vessel, will come north with her.

THE EXCELLENCE OF SYRUP OF FIGS

is due not only to the originality and simplicity of the combination, but also to the care and skill with which it is manufactured by scientific processes known to the CALIFORNIA FIG SYRUP CO. only, and we wish to impress upon the true and original remedy. As the genuine Syrup of Figs is manufactured by the CALIFORNIA FIG SYRUP CO. only, a knowledge of that fact will assist one in avoiding the worthless imitations manufactured by other parties. The high standing of the CALIFORNIA FIG SYRUP CO. with the medical profession, and the satisfaction which the genuine Syrup of Figs has given to millions of families, makes the name of the Company a guaranty of the excellence of its remedy. It is far in advance of all other laxatives, as it acts on the kidneys, liver and bowels without irritating or weakening them, and it does not grip nor nauseate. In order to get its beneficial effects, please remember the name of the Company—

Committee to Meet

The Jackson county republican central committee has been called to meet at Seymour August 18, at 10:30 a. m.

A great country, a great people, a great president and a great destiny has America.

Two people of this country sprang into the war with wonderful unanimity and eagerness, prosecuted it with terrific vigor, and now hail the return of an honorable and victorious peace, with universal gladness.

Spain's colonies have cost her barrels of money. Now that she has gotten rid of them there is no reason why she should not settle down and raise things upon her fertile hills and get rich by so doing; or a little attention to the Castile soap trade, made from real olive oil, might bring good returns. In fact, the old nation can make a good living with a little energy.

Two so-called Cuban debt which some people in foreign countries seem so anxious to eventually saddle on this country through its connections with the island, brought about by the war, is not a Cuban debt. The debt was incurred by Spain to carry on war against Cuba and therefore is Spain's debt. Let the holders of the bonds issued for this purpose look to Spain for their money. Cuba had nothing to do with them. It is not likely the bonds cost the holders much.

DISBANDING THE ARMY.

The notion that the President must disband the Volunteers immediately after Spain quits fighting is erroneous. The act under which the volunteers were called out provides that they shall be discharged at the end of the war but the end need not officially come just as soon as the Spaniards lay down their arms. Lee surrendered on April 9, 1865, Johnston on April 26, and Kirby Smith on May 26. These were the last bodies of armed Confederates anywhere. President Johnson issued his proclamation on April 2, 1866, that the insurrection had ended in all of the eleven seceded states except Texas, and the war was declared to be ended in Texas on Aug. 20. That is the war was physically ended about a year before it was legally ended. President McKinley need not proclaim the war ended immediately after Blanco and the Spanish commander in the Philippines surrender, and the probability is that he will not. If every Spanish soldier in Spain's American and Asiatic colonies should lay down his arms today, the President could, for many months yet keep as many volunteers in the service as would be needed. The idea that if Spain agrees to the peace terms the President will have to call Congress in session at once in order to avert the necessity of discharging all the volunteers is absurd. That part of the postwar legislation could be attended to in regular session next winter. Globe Democratic.

Missouri claims to be the fifth state in the Union, yet the democrats over there have again indorsed the Bryan platform. They will cause their state to lose her rank if they don't change their gait.

A committee should be appointed at once to make suitable preparation for the holding of the 4th District Republican convention here next Thursday August 18th. The hall should be secured and properly decorated and vocal and instrumental music provided, and everything done to give our friend a royal welcome. Seymour has an enviable reputation as a convention city and we must maintain our good name in this instance and make the convention a great success.

The war is practically ended, and the anxiety for the safety of sons at the front is relieved. Within less than four months war was declared, an army of 200,000 raised and equipped and disciplined. A powerful navy gathered and every Spanish vessel within reach of our guns sunk. Every fortress against which they proceeded was captured, every skirmish won and peace dictated on our own terms. This war began for the sake of humanity has been conducted on terms of great magnanimity on our part. The corrupt and tyrannical government of Spain has been driven into its native confines. The valor and heroism of American seamen and soldiery has been given world wide fame. Our own nation has been united at home as never before. It has won universal respect abroad. It has liberated people and acquired such territory as affords the opportunity for a wider expansion of our commercial interest and civilizing influences, and insures an era of prosperity in the near future unparalleled by our marvelous past.

The republicans of the county met in their respective townships to select delegates to the congressional convention to be held in this city next Thursday. Several names will be presented for nomination to this convention, and the feeling is generally entertained that the nominee of this convention will be the choice of the people at the polls. Mr. Griffith, the present congressman from this district, has proven a weak and unpromising candidate before the people, and shown no ability or aptness for public affairs. The principles for which he stands have been practically abandoned by the wisest men of the democratic party, and the policies of the present republican administration have wrought such wonderful improvement in the affairs of the nation, and added so much to the comfort and enjoyment of life by all our citizens, as to entitle the republican candidate to a tremendous majority.

Letter from Chickamauga.

EDITORS REPUBLICAN:

Perhaps a few lines in regard to our every day camp life would be of interest to you, it is generally the same thing every day from reveille to retreat except Friday's and Saturday's. Friday's we have our brigade sham battles which are very interesting to a spectator, but lots of hard work for the boys who take part in it, for from the time the scouts leave the line until retreat is sounded it is nothing but march and counter-march, some times on the double quick, sometimes on the run through swamps, blackberry bushes or over fallen timber, at the same time keeping up a regular line. The battle is generally one regiment against two.

Saturdays we have brigade inspection. Then we are called up by the bugle at 4 a. m., with orders to have all of our baggage packed ready to be loaded at 7:30 a. m. and to have every tent ready to fall promptly at 8 a. m. Then the bugle sounds strike tents and in an instant every tent falls toward the west, resembling a huge column of smoke sweeping over the ground. Then they are rolled up ready for loading. A minute ago you saw a city of nearly 500 tents, now the eyes meet nothing but desolation with men hurrying here and there getting ready to fall in line. When we fall in we carry haversack, canteen, ponches, shelter tents, gun and side arms, not so awful heavy but rather troublesome to carry. The lines are formed and away we start for the review ground which is probably only one mile away, yet you will march from 3 to 5 miles to let the wagon and ambulance train straighten out to pass in review. Each company is reviewed separately and after each regiment comes the wagon and ambulance train. After the brigade has been reviewed we are marched back to our camp ground, where the tents are put up once more, but the baggage is left packed for the afternoon inspection.

The 158th prides itself in having the prettiest camp ground in the park. The boys are not in the best of spirits at present, on account of not being included in the number of regiments going to the front. We have had promises so often that it is a great disappointment to see the last chances go by and be forced to stay here. The officers feel just as badly as the privates do, but they have done all that could be done. There is no better equipped or drilled regiment on the ground than the 158th and why they should be passed over is more than we can account for.

The weather here at present is not very desirable for it rains most of the time and that is not very beneficial to the health of the camp, but so far we have only had one or two deaths in our regiment.

Yours respectfully,

FRANK C. PLATTER, Co. I, 158 Ind. Vol.
Lytle, Ga., Aug. 9, 1898.

INDISCREET PEOPLE.

Grave Evils Follow Excesses in Eating and Drinking.

Those Delicate Organs, the Kidney, Suffer and the Symptoms of Distress should be Promptly Heeded.

What causes kidney troubles? The kidneys are the most delicate excretory organs of the body, and so refined in their structure that any unusual strain on any other part of the body, is apt to produce in them serious troubles, which, if not attended to at once, lead to grave complications. Eating too much, drinking to excess, irregular habits, heavy lifting, exposure to bad weather and a thousand excesses and indiscretions effect the kidneys. Among the first signs of approaching trouble are backaches, nervousness, headaches and pain in passing urine.

Before John Morrow the celebrated American chemist discovered the tablets that are called Morrow's Kidneys, such symptoms were often neglected or wrongly treated, but the great value of Morrow's discovery lies in checking kidney disease in its earliest stages. The kidneys are small yellow tablets, which contain all the elements needed to meet every stage of kidney disease, even the most severe cases.

Committee to Meet

The Jackson county republican central committee has been called to meet at Seymour August 18, at 10:30 a. m.

A great country, a great people, a great president and a great destiny has America.

The people of this country sprang into the war with wonderful unanimity and eagerness, prosecuted it with terrific vigor, and now have the return of an honorable and victorious peace, with universal gladness.

Spain's colonies have cost her barrel of money. Now that she has gotten rid of them there is no reason why she should not settle down and raise things upon her fertile hills and get rich by so doing; or a little attention to the Castile soap trade, made from real olive oil, might bring good returns. In fact, the old nation can make a good living with a little energy.

Thus, so-called Cuban debt which some people in foreign countries seem so anxious to eventually saddle on this country through its connections with the island, brought about by the war, is not a Cuban debt. The debt was incurred by Spain to carry on war against Cuba and therefore is Spain's debt. Let the holders of the bonds issued for this purpose look to Spain for their money. Cuba had nothing to do with them. It is not likely the bonds cost the holders much.

DISBANDING THE ARMY.

The notion that the President must disband the Volunteers immediately after Spain quits fighting is erroneous. The act under which the volunteers were called out provides that they shall be discharged at the end of the war but the end need not officially come just as soon as the Spaniards lay down their arms. Lee surrendered on April 9, 1865, Johnston on April 26, and Kirby Smith on May 26. These were the last bodies of armed Confederates anywhere. President Johnson issued his proclamation on April 2, 1866, that the insurrection had ended in all of the eleven seceded states except Texas, and the war was declared to be ended in Texas on Aug. 20. That is the war was physically ended about a year before it was legally ended. President McKinley need not proclaim the war ended immediately after Blanco and the Spanish commander in the Philippines surrendered, and the probability is that he will not. If every Spanish soldier in Spain's American and Asiatic colonies should lay down his arms today, the President could, for many months yet keep as many volunteers in the service as would be needed. The idea that if Spain agrees to the peace terms the President will have to call Congress in session at once in order to avert the necessity of discharging all the volunteers is absurd. That part of the postwar legislation could be attended to in regular session next winter. —Globe Democrat.

Missouri claims to be the fifth state in the Union, yet the democrats over there have again indorsed the Bryan platform. They will cause their state to lose her rank if they don't change their gait.

A committee should be appointed at once to make suitable preparation for the holding of the 4th District Republican convention here next Thursday August 18th. The hall should be secured and properly decorated and vocal and instrumental music provided, and everything done to give our friend a royal welcome. Seymour has an enviable reputation as a convention city and we must maintain our good name in this instance and make the convention a great success.

The war is practically ended, and the anxiety for the safety of sons at the front is relieved. Within less than four months war was declared, an army of 200,000 raised and equipped and disciplined. A powerful navy gathered and every Spanish vessel within reach of our guns sunk, every fortress against which they proceeded was captured, every skirmish won and peace dictated on our own terms. This war began for the sake of humanity has been conducted on terms of great magnanimity on our part. The corrupt and tyrannical government of Spain has been driven into its native confines. The valor and heroism of American seamen and soldiery has been given world wide fame. Our own nation has been united at home as never before. It has liberated people and acquired such territory as affords the opportunity for a wider expansion of our commercial interest and civilizing influences, and insures an era of prosperity in the near future unparalleled by our marvelous past.

The republicans of the county met in their respective townships to select delegates to the congressional convention to be held in this city next Thursday. Several names will be presented for nomination to this convention and the feeling is generally entertained that the nominee of this convention will be the choice of the people at the polls. Mr. Griffith, the present congressman from this district, has proven a weak and unpromising candidate before the people, and shown no ability or aptness for public affairs. The principles for which he stands have been practically abandoned by the wisest men of the democratic party, and the policies of the present republican administration have wrought such wonderful improvement in the affairs of the nation, and added so much to the comfort and enjoyment of life by all our citizens, as to entitle the republican candidate to a tremendous majority.

EDITORS REPUBLICAN:

Perhaps a few lines in regard to our every day camp life would be of interest to you, it is generally the same thing every day from reveille to retreat except Friday's and Saturday's. Friday's we have our brigade sham battles which are very interesting to a spectator, but lots of hard work for the boys who take part in it, for from the time the scouts leave the line until retreat is sounded it is nothing but march and counter-march, sometimes on the double quick, sometimes on the run through swamps, blackberry bushes or over fallen timber, at the same time keeping up a regular line. The battle is generally one regiment against two.

Saturdays we have brigade inspection. Then we are called up by the bugle at 4 a. m. with orders to have all of our baggage packed ready to be loaded at 7:30 a. m. and to have every tent ready to fall promptly at 8 a. m. Then the bugle sounds strike tents and in an instant every tent falls toward the west, resembling a huge column of smoke sweeping over the ground. Then they are rolled up ready for loading. A minute ago you saw a city of nearly 500 tents, now the eyes meet nothing but desolation with men hurrying here and there getting ready to fall in line. When we fall in we carry haversack, canteen, ponchos, shelter tents, gun and side arms, not so awful heavy but rather troublesome to carry. The lines are formed and away we start for the review ground which is probably only one mile away, yet you will march from 3 to 5 miles to let the wagon and ambulance train straighten out to pass in review. Each company is reviewed separately and after each regiment comes the wagon and ambulance train. After the brigade has been reviewed we are marched back to our camp ground, where the tents are put up once more, but the baggage is left packed for the afternoon inspection.

The 15th prides itself in having the prettiest camp ground in the park. The boys are not in the best of spirits at present, on account of not being included in the number of regiments going to the front. We have had promises so often that it is a great disappointment to see the last chances go by and be forced to stay here. The officers feel just as badly as the privates do, but they have done all that could be done. There is no better equipped or drilled regiment on the ground than the 15th and why they should be passed over is more than we can account for.

The weather here at present is not very desirable for it rains most of the time and that is not very beneficial to the health of the camp, but so far we have only had one or two deaths in our regiment.

Yours respectfully,

FRANK C. PLATTER, Co. I, 15th Ind. Vol.
Lytle, Ga., Aug. 9, 1898.

INDISCREET PEOPLE.

Grave Evils Follow Excesses in Eating and Drinking.

Those Delicate Organs, the Kidney, Suffer and the Symptoms of Distress Should be Promptly Heeded.

What causes kidney troubles? The kidneys are the most delicate excretory organs of the body, and are so refined in their structure that any unusual strain on any other part of the body is apt to produce in them serious troubles, which if not attended to at once, lead to grave complications. Excess of food, drinking, irregular habits, heavy lifting, exposure to bad weather and a thousand excesses and indiscretions effect the kidneys. Among the first signs of approaching trouble are backaches, nervousness, headaches and pain in passing urine.

Before John Morrow the celebrated American chemist discovered the tablets that are called Morrow's Kidneys, such symptoms were often neglected or wrongly treated, but the great value of Morrow's discovery lies in checking kidney disease in its earliest stages. The kidneys are small yellow tablets, which contain all the elements needed to meet every stage of kidney disease, even the most severe cases.

1865. 1898. Antebellum Remedies, Stamps Won't Save Them

A recent Washington City dispatch says: "J. C. Ayer & Co., of Lowell, Mass., have written to Washington, stating that a number of their agents have goods on hand still bearing the revenue stamps attached issued during the civil war. They asked if such goods would have to be restamped under the new revenue law. The department has decided in the affirmative.

The civil war was ended over 33 years ago. These goods have been on the market for a long while! And "there are others!"

Would not the consumer fare better if he would go to his druggist and have his medicine prepared as they are needed, instead of buying those prepared 33 years in advance.

TERMS OF PEACE.

Spain to Immediately Evacuate Cuba and Porto Rico.

The terms of peace set forth in the protocol are as follows:

The immediate evacuation by Spain of Cuba and Porto Rico.

The surrender of all sovereignty by Spain over Cuba.

The cession to the United States of Porto Rico and other Spanish islands in the West Indies.

The cession of an island in the Ladrones.

The occupation of Manila—city, bay and harbor—by the United States pending the settlement by treaty of the disposition of the Philippines.

Commissioners are to meet in thirty days at Havana and San Juan to settle the details of evacuation.

Spain and the United States shall each appoint five peace commissioners to meet in Paris not later than October 1 to conclude a treaty.

All hostilities are to cease as soon as commanders can be notified.

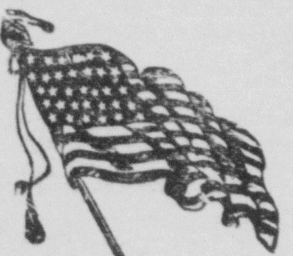

The effect of the signing of such a protocol is, of course, equivalent to a Spanish surrender in Porto Rico and Cuba and at Manila.

It gives us Porto Rico without further fighting and spoils the excellent plan of campaign which Gen. Miles has been so success fully prosecuting.

At Manila it renders unnecessary any assault by the troops of Gen. Merritt although much may happen there with in three or four days necessary for the news of peace to reach the American commanders in the Philippines.

The Cubans, it is declared by the President of the Cuban Junta, consider themselves bound, of course to suspend hostilities against the Spaniards and will await the development of the policy of the United States subsequent to Spanish evacuation.

Rear Admiral Sampson was directed to lift the blockade of Cuba and Porto Rico and was given detail instructions as to the disposition of the warships.

Tired and Despondent.

Mrs. Bolser Speaks for Many Careworn, Complaining Women.

Women in charge of homes and careworn, complaining people find their strength permanently established by the use of Paine's Celery Compound, the greatest nerve restorer and blood purifier the world has ever been blessed with. Try it, and when you go to the drug store for Paine's Celery Compound see that you get it.

Mrs. Bolser speaks for countless women who have suffered from aching backs, worn and tired feelings, and have been freed from the pain and weakness by Paine's Celery Compound.

Mrs. Bolser tells the story of her deliverance from invalidism in the following letters:

Mountain Junction, Tenn., Nov. 3, '94.

Dear Sirs:—Two years ago I came from Nova Scotia, and I suppose my debilitated condition was partially owing to climatic influences. I used various kinds of medicines, but continually grew weaker, until it was with difficulty that I could go up and down stairs, and in trying to walk out of doors, could go only a few steps when I would be obliged to lean against a tree or sit down. I had read frequently of Paine's Celery Compound and resolved to use it.

It put me on my feet again, so that I began to take courage. I used several bottles and I feel that I owe you a

debt of gratitude for the same. I recommend the compound to my friends far and near. Yours gratefully, Mrs. C. B. Bolser.

After two years Mrs. Bolser still praises Paine's Celery Compound.

St. Elmo, Tenn., June 22, '96.

Dear Sirs:—I still continue a friend and well wisher of Paine's Celery Compound, and have received replies from my friends of its good results on my recommendation. I wish you continued success. Yours truly, Mrs. C. B. Bolser.

One of the largest retail druggists in the city, whose business enables him to feel the public pulse in the matter of sickness and its cure, says: "Women are peculiarly in need of a pleasant tonic. They suffer from exhaustion, and in Paine's Celery compound they find instant relief. Many families now use it, and many wives give it to their husbands when they return home at night worn out from business cares. It never fails to invigorate both the mind and body, and is a preparation that meets a common want for a safe and beneficial tonic."

Paine's Celery Compound is just the remedy that suits the condition of women run down in health, with unstrung nerves, wasted bodies, and thin, vitiated blood.

The Bitter-Sweet of War.

Whatever there may have been of difference in public opinion upon the declaration of war, the Nation is a unit in its approval of a declaration of peace. There will be controversies and debates upon matters of detail when terms of settlement come to be adjusted. That is inevitable, but upon the broad proposition of restored pacification among peoples the satisfaction is sincere and supreme. However ready we may have been to fight for the principles of humanity, we are equally ready to withdraw from the contest, unequal and unsought, the proper acknowledgment of those principles having been forced their proper application having been coerced.

That the war should be waged and no lives lost, no homes broken, no hearts torn, was not to be expected. With the laurel that valor has crowned Columbia's fair brow is interwined the myrtle. We have our heroes living but not all of them. Some lie on the blood-stained fields of Santiago now a silent solitude since the shock of battle has given place to the submission of surrender. In the Philippines, far away, others died; and here and there wherever there is tenting, marching or fighting, souls of our soldier boys were loosed by death for light eternal, while on the swelling bosom of the sea brave sailor lads gave life for country's honor.

These are our treasures of a memory that is no less sweet than bitter—sweet because they died as heroes die, every man of them a scion of the soul's nobility. It matters not whether death found them in the fighting line, on the battle deck or in the cot where disease had bound them fast, the soldier and the sailor, humble or exalted, who perished in this contest for peace honorable and humane, now just declared, deserves and will receive a monument—mayhap not in bronze or marble, but in the deep, eternal devotion of a proud Christian Nation's pride and love for her children lost more tender far than that for her children living. We wear our weeds in pride no less than pathos, and when we mete out with approving smiles honors to heroes who so nobly will be at so great a sacrifice.

And so, with weeping, for our dead a prayer for those who yet will die, and a prayer of praise including these with heroes that survive, a Nation offers thanks that peace is restored. If she have pride in feeling that with it come great honors for her arms, her statesmanship, her manhood and her flag, is it not pardonable?—Commercial Tribune.

Mrs. Catherine Davis, of near Jonesville has sold her farm up there and she is looking for a farm near Seymour on which to move.

Many People Cannot Drink Coffee at night. It spoils their sleep. You can drink Grain-O when you please and sleep like a top. For Grain-O does not stimulate; it nourishes, cheers and feeds. Yet it looks and tastes like the best coffee. For nervous persons, young people and children Grain-O is the perfect drink. Made from pure grains. Get a package from your grocer to try it in place of coffee. 25c.

HENRY IRVING AS A JOKER.

He and Toole Made a Topsy Turvy Repent Temporarily.

Sir Henry Irving tells an amusing story of a joke that he, with Mr. Toole and a third party, played some years ago at a Glasgow hotel. After their work they were supping at the hotel, where, says Sir Henry, "there was in the room a high screen. The instant the waiter was gone we commenced operations. We stripped the silverware, of which there was a tolerable supply, from the table and placed it behind the screen. We then opened the window and turned out the gas, and finally all got under the table. We had only to remain in our cramped position a few minutes before we heard the unsteady feet of our friend, the waiter, along the passage.

"The darkened room amazed him and the cold air from the window seemed to strike him with affright.

"Goodness!" exclaimed he, "it's thieves they are. A thought as much free the larks o' them, and free their gay talk and their laughter. Eh, but I'm a ruined man. A wish a' had nae taen the hale o' that last bottle. Hear! Hear! Thieves! Thieves! Murder! Thieves! Thieves!" and shouting at the top of his voice he ran out of the room and along the passage.

"The minute he had gone we shut the door, lit the gas, restored the silver to the table and sat round as before, enjoying a quiet cigar. Presently there was a confused murmur along the passage. It grew louder and louder, and in poured a truly motley throng, mostly half dressed, consisting of the manager, two men in bare legs and slippers, and a lady with a blanket, in the alarm of fear caught up, followed by our agonized friend, the waiter. One man was armed with a poker and the other carried a bronze statuette ready to hurl at the thief. As they entered we all sat back and looked at them in well feigned amazement, and Toole said to the astonished and bewildered manager, 'Do you always come in this way with your friends when a gentleman asks for his bill?'—London Telegraph.

THE SCALE SETTLED

Windowglass Workmen and Manufacturers Come to Terms.

WOMAN BURNED TO DEATH

Young Man and Young Woman Drowned In Crooked Lake—Officers Want Something to Do—Has Money In the Treasury—Hotelkeeper Wounded—Other State News.

Pittsburg, Aug. 13.—The window glass scale was unexpectedly settled last night and 20,000 workmen throughout the country will return to work next month, 6,000 of them at an advance in wages.

Both the manufacturers and workmen have made concessions in the matter of wages and time of starting the factories. The scale as agreed upon gives to the men a general advance of 5 per cent instead of the 7 per cent asked over last year's fire. The advance for small double strength blowers amounts to 7 per cent; for single strength blowers a fraction over 3 per cent, and for double strength blowers a little over 2 per cent. The co-operative plant fires will be lighted September 5, the season to begin September 22 and close June 22. The season for the factories representing the manufacturers will begin October 15 and close May 22.

BURNED TO DEATH.

Woman Loses Her Life While Cleaning a Bed With Gasoline.

Ft. Wayne, Ind., Aug. 13.—Bortha Warner, living at the home of Wesley Roebuck, two miles from this city, was burned to death yesterday. She was alone in the house, and was cleaning a bed with gasoline. She lighted a match to look for bugs, when the bed and her clothing caught fire. She ran down stairs, screaming for help, and fell at the kitchen door, where she was burned to a crisp. A hired hand arrived on the scene a few moments later, and succeeded in putting out the fire, which had damaged the house \$300. The girl was 20 years old. Her parents live at Rockford, O.

BOAT CAPSIZED.

Leonard Roby and Lena Remps Drowned In Crooked Lake.

Angola, Ind., Aug. 13.—While a party of six young folks was returning from bathing in Crooked lake, the boat capsized and Leonard Roby, stepson of Judge Roby of Auburn, and Lena Remps of Waterloo, were drowned in 70 feet of water.

Officers Want Something to Do.

Rochester, Ind., Aug. 13.—Major Skinner of the One Hundred and Fifty-eighth Indiana, has returned to Chickamauga after a few days' stay with his family in this city. Before leaving he stated that unless the regiment was given something to do he intended to resign, as would also all of the commissioned officers of Company B of this city. The major is much shattered in health.

Testimony Against Marshall Is Strong.

Portland, Ind., Aug. 13.—The coils are apparently tightening around Samuel Marshall, being tried for the murder of Mrs. Stoltz. Yesterday Frank Markel of Maucie and several hackmen of the latter place and Anderson all told stories that weighed heavily against the accused.

Has Money In the Treasury.

Elwood, Ind., Aug. 13.—President J. R. Speelman of the National Windowglass Cutters' association has made his first report since the association became a separate organization one year ago. The report shows that the association is thoroughly organized and has \$15,000 in the treasury.

Crushed About the Hips.

Franklin, Ind., Aug. 13.—Perry Burgett of this city, a horseman well known all over the state, was probably fatally injured while driving on the Columbus (Ind.) track at the fair. His horse reared and fell upon him, crushing him about the hips.

Hotel Keeper Wounded.

Mitchell, Ind., Aug. 13.—A cartridge which had been placed on the railway track by a small boy was exploded by a passing train. The bullet entered the thigh of C. A. Richardson, proprietor of the Putnam Hotel, causing a serious wound.

TIED AND DESPONDENT. Mrs. Bolser Speaks for Many Care- worn, Complaining Women.

Women in charge of homes and care-
worn, complaining people find their
strength permanently established by
the use of Paine's Celery Compound,
the greatest nerve restorer and blood
purifier the world has ever been
blessed with. Try it, and when you go
to the drug store for Paine's Celery
Compound see that you get it.

Mrs. Bolser speaks for countless
women who have suffered from aching
backs, worn and tired feelings, and
have been freed from the pain and
weakness by Paine's Celery Compound.

Mrs. Bolser tells the story of her
deliverance from invalidism in the following
letters:

Mountain Junct., Tenn., Nov. 3, '94.
Wells, Richardson & Co.,

Dear Sirs:—Two years ago I came
from Nova Scotia, and I suppose my
debilitated condition was partially
owing to climatic influences. I used
various kinds of medicines, but contin-
ually grew weaker, until it was with
difficulty that I could go up and down
stairs, and in trying to walk out of
doors, could go only a few steps when I
would be obliged to lean against a tree
or sit down. I had read frequently of
Paine's Celery Compound and resolved
to use it.

It put me on my feet again, so that I
began to take courage. I used several
bottles and I feel that I owe you a

debt of gratitude for the same. I recom-
mend the compound to my friends
far and near. Yours gratefully,
Mrs. C. B. Bolser.

After two years Mrs. Bolser still
praises Paine's Celery Compound.

St. Elmo, Tenn., June 22, '96.
Dear Sirs:—I still continue a friend
and well wisher of Paine's Celery Com-
pound, and have received replies from
my friends of its good results on my
recommendation. I wish you contin-
ued success. Yours truly,
Mrs. C. B. Bolser.

One of the largest retail druggists in
the city, whose business enables him to
feel the public pulse in the matter of
sickness and its cure, says: "Women
are peculiarly in need of a pleasant
tonic. They suffer from exhaustion,
and in Paine's Celery compound they
find instant relief. Many families now
use it, and many wives give it to their
husbands when they return home at
night worn out from business cares. It
never fails to invigorate both the mind
and body, and is a preparation that
meets a common want for a safe and
beneficial tonic."

Paine's Celery Compound is just the
remedy that suits the condition of
women run down in health, with un-
strung nerves, wasted bodies, and thin,
vitiating blood.

The Bitter-Sweet of War.

Whatever there may have been of
difference in public opinion upon the
declaration of war, the Nation is a unit
in its approval of a declaration of peace.
There will be controversies and debates
upon matters of detail when terms of
settlement come to be adjusted. That
is inevitable, but upon the broad propo-
sition of restored pacification among
peoples the satisfaction is sincere and
supreme. However ready we may have
been to fight for the principles of hu-
manity, we are equally ready to with-
draw from the contest, unequal and
unought, the proper acknowledgment
of those principles having been forced
their proper application having been
coerced.

That the war should be waged and
no lives lost, no homes broken, no hearts
torn, was not to be expected. With
the laurel that valor has crowned
Columbia's fair brow is intertwined the
myrtle. We have our heroes living
but not all of them. Some lie on the
bleed-stained fields of Santiago, now a
silent solitude since the shock of battle
has given place to the submission of
surrender. In the Philippines, far
away, others did; and here and there
wherever there is tenting, marching or
fighting, souls of our soldier boys were
loosed by death for flight eternal, while
on the swelling bosom of the sea brave
sailor lads gave life for country's honor.

These are our treasures of a memory
that is no less sweet than bitter—sweet
because they died as heroes die, every
man of them a scion of the soul's nobil-
ity. It matters not whether death
found them in the fighting line, on the
battle deck or in the ext where dis-
ease had bound them fast, the soldier and
the sailor, humble or exalted, who per-
ished in this contest for peace honor-
able and humane, now just declared,
deserves and will receive a monument
—mayhap not in bronze or marble, but
in the deep, eternal devotion of a proud
Christian Nation's pride and love for
her children lost more tender far than
that for her children living. We wear
our weeds in pride no less than pathos,
and when we mete out with approving
smiles honors to heroes who so nobly
will be at so great a sacrifice.

And so, with weeping, for our dead
a prayer for those who yet will die, and
a poem of praise including these with
heroes that survive, a Nation offers
thanks that peace is restored. If she
have pride in feeling that with it come
great honors for her arms, her states-
manship, her manhood and her flag, is
it not pardonable?—Commercial Tri-
bune.

WOMAN BURNED TO DEATH

Young Man and Young Woman Drowned
In Crooked Lake—Officers Want Some-
thing to Do—Has Money In the Treas-
ury—Hotelkeeper Wounded—Other
State News.

Pittsburg, Aug. 13.—The window
glass scale was unexpectedly settled
last night and 20,000 workmen through-
out the country will return to work next
month, 6,000 of them at an advance in
wages.

Both the manufacturers and work-
men have made concessions in the mat-
ter of wages and time of starting the
factories. The scale as agreed upon
gives to the men a general advance of 5
per cent instead of the 7 per cent asked
over last year's fire. The advance for
small double strength blowers amounts
to 7 per cent; for single strength blow-
ers a fraction over 3 per cent, and for
double strength blowers a little over 2
per cent. The co-operative plant fires
will be lighted September 5, the season
to begin September 22 and close June
22. The season for the factories repre-
senting the manufacturers will begin
October 15 and close May 22.

Woman Loses Her Life While Cleaning
a Bed With Gasoline.

Ft. Wayne, Ind., Aug. 13.—Bertha
Warner, living at the home of Wesley
Ruebuck, two miles from this city, was
burned to death yesterday. She was
alone in the house, and was cleaning a
bed with gasoline. She lighted a match
to look for bugs, when the bed and her
clothing caught fire. She ran down
stairs, screaming for help, and fell at
the kitchen door, where she was burned
to a crisp. A hired hand arrived on the
scene a few moments later, and suc-
ceeded in putting out the fire, which
damaged the house \$300. The girl was
20 years old. Her parents live at Rock-
ford, O.

capsized and Leonard Roby, stepson of
Judge Roby of Auburn, and Lena Rem-
pis of Waterloo, were drowned in 70
feet of water.

Officers Want Something to Do.

Rochester, Ind., Aug. 13.—Major

stated that unless the regiment was
given something to do he intended to
resign, as would also all of the com-
missioned officers of Company B of this
city. The major is much shattered in
health.

A Shattered Nervous System. FINALLY HEART TROUBLE.

Restored to Health by Dr. Miles' Nervine.

DR. EDWARD HARDY, the jolly manager of Sheppard Co.'s great store at Briceville, Ill., writes: "I had never been sick a day in my life until in 1890. I got so bad with nervous prostration that I had to give up and commence to doctor. I tried our local physicians and one in Joliet, but none gave me any relief and I thought I was going to die. I became despondent and suffered untold agony. I could not eat, sleep nor rest, and it seemed as if I could not exist. At the end of six months I was reduced to but a shadow of myself, and at last my heart became affected and I was truly miserable. I took six or eight bottles of Dr. Miles' Nervine. It gave me relief from the start, and at last a cure, the greatest blessing of my life." WAR ENDED

Was Quietly Terminated at the White House Last Evening.

PROTOCOL IS SIGNED

By Secretary Day and the French Ambassador, M. Cambon.

CESSATION OF HOSTILITIES

Ordered by President McKinley.

Instructions Sent to Military and Naval Commanders to Suspend Operations Pending Peace Negotiations—Sampson Ordered to Raise Cuban and Porto Rico Blockades—General Merritt Will Be Instructed to Occupy Manila and General Miles Will Take Charge in Porto Rico—Description of the Ceremonies Attending the Signing of the Protocol.

Washington, Aug. 13.—With simplicity in keeping with Republican institutions, the war, which has raged between Spain and the United States for a period of three months and 23 days, was quietly terminated at 23 minutes past 4 o'clock yesterday afternoon, when Secretary Day for the United States and M. Cambon for Spain, in the presence of President McKinley, signed a protocol which will form the basis of a treaty of peace. It is but simple justice to our sister republic of France to record the fact that to her good offices this speedy termination of a war that might have run on indefinitely was brought about and the president himself deemed that action on the part of the French government as worthy of his special praise.

The closing chapter of events that led up to the signature of the protocol and the cessation of hostilities was full of interest. There were rumors early in the day that the French embassy had received the long expected final instructions from Madrid, but these, upon inquiry, proved groundless, as it was not until afternoon that the note began to come from Madrid in small lots. The state department was soon advised of the fact that the message was under transmission.

As soon as the French ambassador was in full possession of the note Secretary Day was notified by the secretary of the French embassy that the note had been received; that Ambassador Cambon was fully empowered to sign the protocol for Spain and awaited the pleasure of the state department. He informed that the ambassador would be pleased to have the final ceremony conducted in the presence of President McKinley.

A woman's hair is her glory. Like her complexion, much of its beauty depends upon her general health. Nine times in ten a woman's general health is dependent upon her local health in a womanly way. It is an impossibility for a woman to be pretty or attractive who suffers from general ill-health. The skin, the teeth, the eyes, the hair and the carriage itself are impossible for a woman to be in good general health when some local trouble is continually nagging at her nerves and disarranging the natural functions of every organ of the body. Dr. Pierce's Favorite Prescription is the best of all medicines for women who suffer from local weakness and disease peculiar to their sex. It acts directly on the delicate and important organs concerned. It makes them strong, healthy, vigorous and elastic. It allays inflammation, heals ulceration, soothes pain, tones and builds up the nerves and banishes the usual discomforts of the expectant months. It makes baby's advent easy and almost painless. It enables every organ of the body to perform its natural functions without unnatural interference from a pain-tortured nervous system. A woman who is made well in this way will recover her natural beauty of form and feature and her natural amiability of character and temper. Thousands of women have testified to its merits. An honest dealer will not urge a substitute for a little extra profit.

Mrs. Rachel Clark, of Houlton, St. Croix Co., Wis., writes: "I am in good health since I have taken Dr. Pierce's Favorite Prescription. I gave birth to a 12½ pound boy last June. He is six months old now and weighs 30 pounds." How to preserve health and beauty are told in Dr. Pierce's Common Sense Medical Adviser. It is free. For a paper-covered copy send 21 one-cent stamps, to cover mailing only; cloth binding, 31 stamps. Address Dr. R. V. Pierce, Buffalo, N. Y.

Kinley, where the negotiations were begun.

Leaving the secretary of the embassy in his own office, Secretary Day made a short visit to the white house to learn the president's wishes in the matter. The latter immediately consented to accept the suggestion and Mr. Thiebaut hastened to inform his principal that the president would receive him at the white house at 4 o'clock.

Cambon Arrived During a Rainstorm. At the appointed hour a driving rainstorm prevailed, obliging all the parties to resort to carriages for transportation to the white house. Secretary Day came first, accompanied by Assistant Secretary Moore, Second Assistant Secretary Adee and Third Assistant Secretary Cridler. They went immediately

into the cabinet room, where the president sat in waiting. He had invited to be present Assistant Secretaries Pruden and Cortelyou and Lieutenant Colonel Montgomery.

When Ambassador Cambon reached the white house and, with Secretary Thiebaut, was ushered into the cabinet room, where the presidential party was waiting, it was just 4:05 o'clock. After an exchange of diplomatic courtesies, unnecessary loss of time did not occur and Assistant Secretary of State Cridler, on the part of the United States,

JULES M. CAMBON.
[French Ambassador, Who Signed the Protocol for Spain.]

and First Secretary Thiebaut, on the part of Spain, retired to a window, where there was a critical formal examination of the protocol.

It was prepared in duplicate at the state department, one copy to be retained by the United States government and the other to become the property of Spain.

The text is handsomely engrossed in a running old English script. Each copy of the protocol is arranged in double column, French and English, standing alongside for easy comparison as to the exactness of translation. The two copies are alike, except that the one held by this government has the English text in the first column and the signature of Secretary Day ahead of that of M. Cambon, while the copy transmitted to Spain has French in the first column and the signature of M. Cambon ahead of that of Secretary Day.

Signed the Document. The examination of the protocol was satisfactory and the document was handed to M. Cambon, first, and then to Secretary Day, who affixed signatures in that order to each side of the two copies. Then the last detail in making the protocol binding was administered by Assistant Secretary Cridler, in charge of the chancery work, who attached the seal of the United States. Throughout the ceremony all but the two signers remained standing. M. Cambon, in signing for Spain, occupied the seat which Secretary of the Navy Long, now away on a vacation, usually occupied. The president stood at the left hand corner at the head of the great cabinet table. Secretary Day, M. Thiebaut and M. Cambon in the order named on the left side of the table. The rest of the party were standing in other portions of the room.

It was 4:23 o'clock when the final signatures were attached to the protocol and, within the knowledge of all the officials present, this was the first time that a protocol or treaty had been signed at the white house. As this ceremony was concluded, Acting Secretary Allen of the navy department, Secretary Alger and Adjutant General Corbin appeared, having been summoned to the white house by the president, and they were admitted into the cabinet room, just in season to witness one of the most impressive features of the ceremony, when the president requested the hand of the ambassador and through him returned thanks to the sister republic of

France for the exercise of her good offices in bringing about peace. He also thanked the ambassador personally for the important part he has played in this matter and the latter replied in suitable terms. As a further mark of his disposition, President McKinley called for the proclamation, which he had caused to be drawn up suspending hostilities, and signed it in the presence of M. Cambon, who expressed his appreciation of the action.

The pen which was used by Secretary Day in signing the protocol was given to Chief Clerk Michael of the state department, who had bespoken it. M. Thiebaut secured that used by the French ambassador. Upon emerging from the white house Secretary Day received the earnest congratulations of the persons present upon the conclusion of the protocol. He stated that the peace commissioners who are to draw up the definite treaty would not be appointed for several days, but declined to indicate who they would be.

PROCLAMATION. President McKinley Notifies the World That Hostilities Are Suspended. Washington, Aug. 13.—The president last night issued the following proclamation: By the President of the United States of America: A Proclamation.

Whereas, By a protocol concluded and signed Aug. 12, 1898, by William R. Day, secretary of state of the United States, and his excellency, Jules Cambon, ambassador extraordinary and plenipotentiary of the republic of France at Washington, respectively, representing for this purpose the government of the United States and the government of Spain, the United States and Spain have formally agreed upon the terms upon which negotiations for the establishment of peace between the two countries shall be undertaken; and

Whereas, It is in said protocol agreed that upon its conclusion and signature hostilities between the two countries shall be suspended, and that notice to that effect shall be given as soon as possible by each government to the commanders of its military and naval forces;

Now, therefore, I, William McKinley, president of the United States, do, in accordance with the stipulations of the protocol, declare and proclaim on the part of the United States a suspension of hostilities, and do hereby command that orders be immediately given through the proper channels to the commanders of the military and naval forces of the United States to abstain from all acts inconsistent with this proclamation.

In witness whereof I have hereunto set my hand and caused the seal of the United States to be affixed. Done at the city of Washington this 12th day of August, in the year of our Lord, one thousand eight hundred and ninety eight, and of the independence of the United States, the one hundred and twenty-third.

WILLIAM McKINLEY. A copy of the proclamation has been cable to our army and navy commanders. Spain will cable her commanders like instructions.

CEASE HOSTILITIES.

Orders Sent to Commanders of the Army and Navy.

Washington, Aug. 13.—As soon as the peace protocol was signed the president sent for Secretaries Alger and Long and General Corbin, and by his direction orders to cease hostilities forthwith were sent to Generals Miles, Merritt and Shafter, to Admirals Dewey and Sampson, and military commanders generally. The order sent to General Merritt to suspend hostilities was as follows:

ADJUTANT GENERAL'S OFFICE. WASHINGTON, Aug. 13, 1898. Merritt, Manila. The president directs all military operations against the enemy be suspended. Peace negotiations are nearing completion, a protocol having just been signed by representatives of the two countries. You will inform the commanders of the Spanish forces in the Philippines of these instructions. Further orders will follow. Acknowledge receipts. By order of the secretary of war.

The orders sent to General Miles and General Shafter were identical with the above save as to the names.

As the order states, further instructions will be sent to each general. General Merritt will be directed to confer with the Spanish commandant at Manila to carry out the terms of the protocol, and to occupy Manila immediately. General Miles will put himself in communication with the chief authority in Porto Rico for the purpose of having Spanish forces turn over San Juan and other points to him preparatory to evacuation. Owing to conditions in Cuba the orders to General Shafter, to be sent hereafter, will be much different than those to other generals.

The navy department is also preparing orders to all commanders on lines similar to the war department order.

Brigadier General McKee at Knoxville. Knoxville, Aug. 13.—Brigadier General McKee is here to inspect a camp site for his troops—Second division, First corps—to be removed here from Chickamauga. Lieutenant Way of the Grigsby "rough riders" is also here and has selected a camp for 3,000 cavalry, which will also be sent here.

GREAT RELIEF FELT

In Spanish Government Circles Over Peace Negotiations.

CORTES WILL NOT MEET

Until Autumn, When Agitation of Extremists Will Have Cooled Down—McKinley Acted Wisely In Not Questioning M. Cambon's Competency—English Press Expresses Gratification.

Madrid, Aug. 13.—The protocol will be published simultaneously in the official gazettes here and in Washington. The papers discuss the situation quietly, and great relief is felt in government and court circles that President McKinley has not demanded a convocation of the cortes to approve the peace preliminaries. The cortes will now not be summoned until autumn, by which time it is expected that the agitation of the extremists will have cooled down and the country have become more inclined to accept accomplished facts.

The commission of commerce, under the presidency of Senor Castillo, which is to meet in the West Indies will be composed, it is understood, of military officers, and it is believed here that this commission will pave the way for commercial treaties and for a recognition by the United States or Cuba of a portion of the Cuban debt.

The suggestion that Senor Moret, former minister for the colonies, may preside over the Paris commission is not very popular. Various names are mentioned in connection with the commission's personnel, but nothing has yet been settled as to this.

Senor Sagasta has again assured the queen regent that he does not fear Carlist trouble, and the Carlist themselves appear to recognize that the country is not in the temper that would support a Carlist rising. They are now speculating on the return of the discontented repatriated army, hoping for mischief there.

The government has decided to withdraw its prohibition of wheat export from and after next Monday.

HAWAIIAN NEWS.

Admiral Miller Arrives at Honolulu. Raised the United States Flag. Honolulu, Aug. 4, via Victoria, B. C., Aug. 13.—The United States steamship Philadelphia has arrived here with Admiral Miller and staff on board, who came for the purpose of raising the American flag over the Hawaiian islands. Admiral Miller has orders to confer with Minister Sewall, and until after the conference nothing definite will be decided as to the flag raising programme.

A conference with the Hawaiian government will be held this afternoon. It is generally understood that the flag will not be raised until the commissioners arrive on the 17th inst.

F. M. Hatch has resigned his position as minister to the United States.

The Japanese imbroglio of 1897 has been settled by the payment of \$75,000 to Japan. In making the payment the government does not admit the justice of the claim or right of Japan to indemnity. The payment was made at the request of President McKinley.

ACTED WISELY

Did President McKinley In Not Questioning M. Cambon's Competency.

London, Aug. 13.—The Madrid correspondent of The Times, confirming the earlier statement that the text of the protocol was only received Thursday evening says:

"Some difficulty arose in the cabinet council over the competency of M. Cambon to sign the protocol. As it is quite certain that the cortes will ratify the treaty, President McKinley acted wisely in not giving undue prominence to this question."

"There is no conceivable doubt that Senor Sagasta will get the requisite sanction for concluding peace. Whether he will ask for it in one or two instalments is a question of parliamentary strategy. A member of the cabinet assures me that it has not yet been decided."

Remembered the Maine.

Washington, Aug. 13.—The state department has received the following from the consul at Montevideo: "The sacrifices of those who were lost in the destruction of the Maine in Havana harbor are not forgotten in this far-away place. I have the pleasure to report that the masters of the American ships war-bound here, and others, have placed a very beautiful, costly and permanent porcelain mortuary wreath on the walls of the consulate as an expression of their sorrow and remembrance of our dead in that foul crime."

The English Press.

London, Aug. 13.—The morning papers were unanimous in expressing gratification that the war is ended. The comment mainly turns on the fact that the protocol leaves untouched the hardest problems now facing America. The Times believes it will be a real peace, adding: "We trust it is no violation of neutrality to express the satisfaction of the great majority of Englishmen in America's success."

Movement Against Enemy Abandoned.

Ponce, Porto Rico, Aug. 13.—The contemplated flank movement against the enemy entrenched at Alibonito by the Second Wisconsin has been abandoned by order of General Miles. The officers here are inclined to believe that the war is ended, owing to the peace

news. It has developed that 11 Spaniards were killed and 60 wounded in the fight at Coamo.

KENTUCKY SOLDIERS.

Efforts Being Made to Have Them Sent Home.

Frankfort Ky., Aug. 13.—At the request of Thomas B. Cromwell of Lexington, Governor Bradley has telegraphed Secretary Alger, asking that the Second Kentucky infantry be transferred to the First brigade. Third division, First corps, and sent with General Sanger's command to Lexington.

Mr. Cromwell was in consultation with the governor relative to the wishes of Colonel Gaither, whom he visited in Chickamauga park last Tuesday. The health of the Second Kentucky is generally bad. There are now over 100 sick on the rolls. Colonel Gaither is exerting every effort to secure the removal of the regiment from the park. He has offered to march his command back to Kentucky—236 miles—or to any other point in the United States if the war department will take him out of what he calls a "disease-breeding hole."

SNAKE DANCE.

Prayer For Rain—Familiar Ceremonies of the Moki Pueblos.

Canon Diablo, A. T., Aug. 13.—Indian rumors from the Moki Pueblos, north of this point, announce that the date for the snake dance, to be held at the pueblo of Oraibi this year, has been set for Aug. 22. This dance will also be performed at two of the other Moki villages on or about the same date. The snake dance is a prayer for rain, the Moki dwelling upon the desert where crops are far from certain, and August is a critical period in their agriculture. It is a 9-days' ceremony, which, for the first eight days, is confined to secret rites in the underground devotional chambers or kivas. On the ninth day a public dance occurs, participated in by the priests of the Snake and Antelope fraternities, during which live snakes are carried in the month and otherwise familiarly handled. About one-third the number of reptiles are poisonous rattlesnakes, which are in no way deprived of their death dealing power.

Quarantined Against Yellow Fever.

Jackson, Miss., Aug. 13.—An official report having been received that one death has occurred from yellow fever at Franklin, La., Dr. John F. Hunter, secretary of the state board of health, has quarantined the state of Mississippi against the town of Franklin and St. Mary's parish, in which it is situated. No passenger, freight, baggage or express will be allowed through within the state from that parish.

Profiting by Others' Misfortunes.

Williamsburg, Ky., Aug. 13.—There is a heavy log tide in the Cumberland river, and more logs are running than were ever known before. Several large booms up the river have given way and logs pass here at the rate of over 300 per minute. Thousands are passing by which cannot be secured. The millmen here are profiting by the loss of those up the river, and will have their booms filled for the first time in years.

Rear Admiral Kirkland Dead.

Vallejo, Cal., Aug. 13.—Rear Admiral Kirkland, commandant of the Mare Island navyyard, died last night.

THE PROTOCOL.

Some of the Provisions of the Document Signed Yesterday.

Washington, Aug. 13.—Secretary Day gave out a statement as to points covered by the protocol, in part as follows: Spain relinquishes all authority over Cuba; Porto Rico and other Spanish West India islands, together with one of the Ladrone islands to be ceded the United States; United States to hold the city, bay and harbor of Manila pending conclusion of treaty of peace.

Rush at Camp Wikoff.

New York, Aug. 13.—General Young and Colonel Forwood are trying their utmost to get camp Wikoff at Montauk point in shape for the great number of troops expected there by rail by transports in the next 48 hours. In spite of pushing things day and night, there is a great amount of work to be done, and General Young has telegraphed the Washington authorities not to send any more troops by rail to Montauk until the camp was in better shape.

The Jackson county republican central committee has been called to meet at Seymour August 18, at 10:30 a. m.

A great country, a great people, a great president and a great destiny has America.

The people of this country sprang into the war with wonderful unanimity and eagerness, prosecuted it with terrific vigor, and now hail the return of an honorable and victorious peace, with universal gladness.

Spain's colonies have cost her barrels of money. Now that she has gotten rid of them there is no reason why she should not settle down and raise things upon her fertile hills and get rich by so doing; or a little attention to the Castile soap trade, made from real olive oil, might bring good returns. In fact, the old nation can make a good living with a little energy.

The so-called Cuban debt which some people in foreign countries seem so anxious to eventually saddle on this country through its connections with the island, brought about by the war, is not a Cuban debt. The debt was incurred by Spain to carry on war against Cuba and therefore is Spain's debt. Let the holders of the bonds issued for this purpose look to Spain for their money, Cuba had nothing to do with them. It is not likely the bonds cost the holders much.

DISBANDING THE ARMY. The notion that the President must disband the Volunteers immediately after Spain quits fighting is erroneous. The act under which the volunteers were called out provides that they shall be discharged at the end of the war but the end need not officially come just as soon as the Spaniards lay down their arms. Lee surrendered on April 9, 1865, Johnston on April 26, and Kirby Smith on May 26. These were the last bodies of armed Confederates anywhere. President Johnson issued his proclamation on April 2, 1866, that the insurrection had ended in all of the eleven seceded states except Texas, and the war was declared to be ended in Texas on Aug. 20. That is the war was physically ended about a year before it was legally ended. President McKinley need not proclaim the war ended immediately after Blanco and the Spanish commander in the Philippines surrender, and the probability is that he will not. If every Spanish soldier in Spain's American and Asiatic colonies should lay down his arms today, the President could, for many months yet keep as many volunteers in the service as would be needed. The idea that if Spain agrees to the peace terms the President will have to call Congress in session at once in order to avert the necessity of discharging all the volunteers is absurd. That part of the postwar legislation could be attended to in regular session next winter.—Globe Democratic.

MISSOURI claims to be the fifth state in the Union, yet the democrats over there have again endorsed the Bryan platform. They will cause their state to lose her rank if they don't change their gait.

A committee should be appointed at once to make suitable preparation for the holding of the 4th District Republican convention here next Thursday August 18th. The hall should be secured and properly decorated and vocal and instrumental music provided, and everything done to give our friend a royal welcome. Seymour has an enviable reputation as a convention city and we must maintain our good name in this instance and make the convention a great success.

The war is practically ended, and the anxiety for the safety of sons at the front is relieved. Within less than four months war was declared, an army of 200,000 raised and equipped and disciplined. A powerful navy gathered and every Spanish vessel within reach of our guns sunk, every fortress against which they proceeded was captured, every skirmish won and peace dictated on our own terms. This war began for the sake of humanity has been conducted on terms of great magnanimity on our part. The corrupt and tyrannical government of Spain has been driven into its native confines. The valor and heroism of American seamen and soldiery has been given world wide fame. Our own nation has been united at home as never before. It has won universal respect abroad. It has liberated people and acquired such territory as affords the opportunity for a wider expansion of our commercial interest and civilizing influences, and insures an era of prosperity in the near future unparalleled by our marvelous past.

The republicans of the county met in their respective townships to select delegates to the congressional convention to be held in this city next Thursday. Several names will be presented for nomination to this convention and the feeling is generally entertained that the nominee of this convention will be the choice of the people at the polls. Mr. Griffith, the present congressman from this district, has proven a weak and unpromising candidate before the people, and shown no ability or aptness for public affairs. The principles for which he stands have been practically abandoned by the wisest men of the democratic party, and the policies of the present republican administration have wrought such wonderful improvement in the affairs of the nation, and added so much to the comfort and enjoyment of life by all our citizens, as to entitle the republican candidate to a tremendous majority.

TO CLEAN THE SYSTEM. Effectually yet gently, when constive or bilious, to permanently overcome habitual constipation, to awaken the kidneys and liver to a healthy activity, without irritating or weakening them, to dispel headaches, colds, or fevers use Cyrop of Figs, made by the California Fig Syrup Co.

Letter from Chickamauga. EDITORS REPUBLICAN: Perhaps a few lines in regard to our every day camp life would be of interest to you. It is generally the same thing every day from reveille to retreat except Friday's and Saturday's. Friday's we have our brigade sham battles which are very interesting to a spectator, but lots of hard work for the boys who take part in it, for from the time the scouts leave the line until retreat is sounded it is nothing but march and counter-march, sometimes on the double quick, sometimes on the run through swamps, blackberry bushes or over fallen timber, at the same time keeping up a regular line. The battle is generally one regiment against two.

Saturdays we have brigade inspection. Then we are called up by the bugle at 4 a. m., with orders to have all of our baggage packed ready to be loaded at 7:30 a. m. and to have every tent ready to fall promptly at 8 a. m. Then the bugle sounds strike tents and in an instant every tent falls toward the west, resembling a huge column of smoke sweeping over the ground. Then they are rolled up ready for loading. A minute ago you saw a city of nearly 500 tents, now they meet nothing but desolation with men hurrying here and there getting ready to fall in line. When we fall in we carry haversack, canteen, ponchos, shelter tents, gun and side arms, not so awful heavy but rather troublesome to carry. The lines are formed and away we start for the review ground which is probably only one mile away, yet you will march from 3 to 5 miles to let the wagon and ambulance train straighten out to pass in review. Each company is reviewed separately and after each regiment comes the wagon and ambulance train. After the brigade has been reviewed we are marched back to our camp ground, where the tents are put up once more, but the baggage is left packed for the afternoon inspection.

The 158th prides itself in having the prettiest camp ground in the park. The boys are not in the best of spirits at present, on account of not being included in the number of regiments going to the front. We have had promises so often that it is a great disappointment to see the last chances go by and be forced to stay here. The officers feel just as badly as the privates do, but they have done all that could be done. There is no better equipped or drilled regiment on the ground than the 158th and why they should be passed over is more than we can account for.

The weather here at present is not very desirable for it rains most of the time and that is not very beneficial to the health of the camp, but so far we have only had one or two deaths in our regiment.

Yours respectfully, FRANK C. PLATTER, Co. I, 158 Ind. Vol. Lytle, Ga., Aug. 9, 1898.

Those Delicate Organs, the Kidney, Suffer and the Symptoms of Distress Should be Promptly Heeded.

What causes kidney troubles? The kidneys are the most delicate excretory organs of the body and are so related in their structure that any unusual strain on any other part of the body is apt to produce in them serious troubles, which, if not attended to at once, lead to grave complications.

I have been suffering from kidney troubles for a number of years. My back would often become so lame and the pain so intense, that I could scarcely get around at all. The jar in my back when driving the wagon would sometimes unbearable, and for several days at a time I was unable to perform the work I am accustomed to. I tried many remedies, but to my surprise, after taking two boxes, the pain and weakness has entirely left me, and I am enjoying better health in every way than for the past twenty years.

Morrow's Kidney Pills are for sale at all dealers. Price 50 cents a box, or six boxes for \$2.50. If not to be had at your dealer's they can be sent postpaid upon receipt of price by John Morrow & Co., Chemists, Springfield, O.

Antebellum Remedies, Stamps Won't Save Them

A recent Washington City dispatch says: "J. C. Ayer & Co., of Lowell, Mass., have written to Washington, stating that a number of their agents have goods on hand still bearing the revenue stamps attached issued during the civil war. They asked if such goods would have to be restamped under the new revenue law. The department has decided in the affirmative.

The civil war was ended over 33 years ago. These goods have been on the market for a long while! And "there are others!"

Would not the consumer fare better if he would go to his druggist and have his medicine prepared as they are needed, instead of buying those prepared 33 years in advance.

TERMS OF PEACE.
Spain to Immediately Evacuate Cuba and Porto Rico.

The terms of peace set forth in the protocol are as follows:
The immediate evacuation by Spain of Cuba and Porto Rico.
The surrender of all sovereignty by Spain over Cuba.
The cession to the United States of Porto Rico and other Spanish islands in the West Indies.
The cession of an island in the Ladronez.
The occupation of Manila—city, bay and harbor—by the United States pending the settlement by treaty of the disposition of the Philippines.
Commissioners are to meet in thirty days at Havana and San Juan to settle the details of evacuation.
Spain and the United States shall each appoint five peace commissioners to meet in Paris not later than October 1 to conclude a treaty.
All hostilities are to cease as soon as commanders can be notified.

The effect of the signing of such a protocol is, of course, equivalent to a Spanish surrender in Porto Rico and Cuba and at Manila.

It gives us Porto Rico without further fighting and spoils the excellent plan of campaign which Gen. Miles has been so successfully prosecuting.

At Manila it renders unnecessary any assault by the troops of Gen. Merritt although much may happen there with in three or four days necessary for the news of peace to reach the American commanders in the Philippines.

The Cubans, it is declared by the President of the Cuban Junta, consider themselves bound, of course to suspend hostilities against the Spaniards and will await the development of the policy of the United States subsequent to Spanish evacuation.

Rear Admiral Sampson was directed to lift the blockade of Cuba and Porto Rico and was given detail instructions as to the disposition of the warships.
